1. The amendment filed 11/18/03 has been considered and entered. Claims 1-12 remain in the application with claims 6-15 being directed toward a non-elected invention on 11/4/02. Hence, claims 1-5 are the only remaining claims present in the application.

Examiner's Amendment

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows to advance the application to allowance:

Claims 6-15 have been canceled.

Allowable Subject Matter

3. Claims 1-5 are allowed.

Reasons for Allowance

4. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or fairly suggest a terminal electrode forming method for chip-style electronic components whereby a film having an adhesive is utilized to manipulate a coating process for terminal ends as well as the fact that the drying step is performed on the area in which the coated paste is adhered to. The prior art teaches an adhesive but no recitation of a film having the adhesive thereon. The prior art teaches convection heating in an oven but fails to teach heating "mainly" the area having paste thereon, i.e. localized heating.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
